

## **AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

### **LISTING OF CLAIMS:**

1. (canceled).
2. (canceled).
3. (currently amended): A photosensitive composition remover used for removal of an uncured photosensitive composition, which remover consists essentially of ~~as set forth in claim 1 having a composition selected from the group consisting of~~  
~~a composition of 20 to 80 percent by mass of one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule and 20 to 80 percent by mass of one or more aprotic polar solvent(s) when the remover consists essentially of one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule and one or more aprotic polar solvent(s);~~  
~~a composition of 10 to 20 percent by mass of one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule and 80 to 90 percent by mass of one or more other solvent(s) other than aprotic polar solvents, when the remover consists essentially of one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule and one or more other solvent(s) other than aprotic polar solvents; and~~  
~~a composition of 20 to 30 percent by mass of one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule, 1 to 20 percent by mass of one or more aprotic polar solvent(s), and 55 to 70 percent by mass of one or more other solvent(s) other than aprotic polar solvents when the remover comprises one or more aromatic hydrocarbon(s) having~~

~~9 carbon atoms or more within the molecule, one or more aprotic polar solvent(s), and one or more other solvent(s) other than aprotic polar solvents~~

wherein the other solvent other than aprotic polar solvents is at least one selected from the group consisting of glycol ethers, glycol ether carboxylates, carboxylic acid esters, hydroxycarboxylic acid esters, ketones, alcohols, alkoxycarboxylic acids esters, and cyclic ethers.

4. (canceled).

5. (canceled).

6. (currently amended): A photosensitive composition remover as set forth in claim ~~1~~ 3, comprising 10 to 20 percent by mass of ~~one or more aromatic hydrocarbon(s) having 9 carbon atoms or more within the molecule and 80 to 90 percent by mass of one or more other solvent(s) other than aprotic polar solvents~~, wherein the remover comprises 30 to 60 percent by mass of propylene glycol monomethyl ether is present in the remover.

7. (canceled).

8. (canceled).

9. (canceled).

10. (canceled).

11. (currently amended): A photosensitive composition remover as set forth in claim ~~1~~ 3, used for removal of a photosensitive composition containing a pigment.

12. (currently amended): A photosensitive composition remover as set forth in claim ~~1~~ 3, used for removal of an acrylic-type photosensitive composition containing a pigment.

13. (new): A photosensitive composition remover used for removal of an uncured photosensitive composition, which remover comprises 1 to 80 percent by mass of at least one

type of aromatic hydrocarbon having 9 carbon atoms or more within the molecule, wherein the remover further comprises two or more of propylene glycol monomethyl ether, propylene glycol monomethyl ether acetate, butyl acetate, ethyl 3-ethoxypropionate, methyl 3-methoxypropionate, and cyclohexanone.

14. (new): A photosensitive composition remover as set forth in claim 3, wherein the remover consists of solvents.
